

## Information for Wettenhall Environmental Trust website

[The Victorian Malleefowl Recovery Group \(VMRG\)](#) has small grants available from the Geoff Armstrong Bequest to provide financial support to projects that will make a positive difference to malleefowl conservation and preservation in Victoria or to promote the enhancement of the natural environment for malleefowl in Victoria.

Applications for projects in other States will be considered but Victoria must benefit in some way.

In accordance with the [policies and aims of the VMRG](#) this may include research projects or activities that include on-ground monitoring, raising awareness of malleefowl issues or undertaking field research.

It may also include research and/or education into known or emerging malleefowl threats (both human and natural) such as predators, competition, land management or climatic impacts on malleefowl numbers or breeding activities.

The citizen science model of science, research and education is strongly supported by the VMRG as is community education and training that leads to malleefowl conservation and preservation.
