

**Wettenhall**  
ENVIRONMENT TRUST

## Special Supporter Event

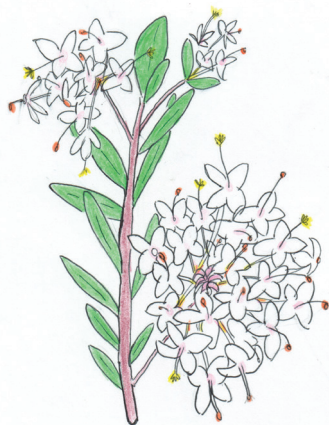

Thursday 22nd May 2025, 1pm-3pm

Wollert Community Farm  
521 Craigieburn Road E, Wollert

This event will showcase a native nursery built as a social enterprise, *nugal biik plants and seeds*. Guest speakers will highlight how collecting and producing local indigenous seed revitalises habitats for native insects, reptiles, birds and animals.

*Wollert Community Farm is a partnership between Whittlesea Community Connections and Yarra Valley Water to re-purpose unused land at a water treatment facility. They have received considerable government grants for development and infrastructure of the site. As funders of biodiversity conservation projects, we were particularly interested in the native nursery and seed production area, and along with some other philanthropic funders, issued a grant to complete its establishment. More information found here:*

The Wettenhall Environment Trust board of trustees would love you to join them for this free event.

We will tour the new facilities, hear from the workers and guest speakers, have some food and drink.
